

Mass flow meter MFM 2021 with PID

Product code: MFM2021 PID

Manufacturer: Axetris

The mass flow meter for gas MFM 2021, in addition to MEMS technology for the flow measure, is provided with a high precision PID control, with analogic exit, that allows a direct, easy, accurate and fast control of the mass flow. The valve override function permits to manage easily the valve, from completely open to completely closed and every option in between.
