

Standalone mass flow regulator for gas MFC 2122

Product code: MFC2122

Manufacturer: Axetris

Standalone mass flow regulator with an internal integrated housing that provides electrical and environmental protection to the MFC 2122 OEM version. Particularly suited to replace traditional flow regulator thanks to his compact dimensions, short lead time, high accuracy and multi-gas and full-scale multi-range functions, that are integrated like the OEM Mass Flow Controller, but with more interfaces:

MFC 2122: RS232/ 0...5 Volt, MFC 2132: RS 232/
4...20 mA,
MFC 2142: RS485.
