

TGS6810-C00

Product code: TGS6810-C00

Manufacturer: Figaro Engineering Inc.

The TGS6810-C00 catalytic type gas sensor can detect both methane and LP gas and it has been developed for residential gas detection.

The C00 version is without filter.

Application field	Domestic
Heater consumption	525 mW typical
Measurement range	0-100% LEL of each gas
Target Gas	Methane Propane Isobutane
