

EDI080201NG

Product code: EDI080201NG

Manufacturer: Edinburgh Sensors

Guardian NG is a stand-alone analyzer, with infrared sensor technology.

It is easy to install and require minimum set up. It has a LCD display integrated and digital alarm set-point controls.

The Guardian is housed in a robust plastic IP54 rated enclosure to prevent the ingress of particulates and water.

The version EDI080201NG has range 0-1%.

Power Supply	from 90 to 260 VAC
Measurement range	0-1%
Target Gas	Methane
Output	0-20 mA 4-20 mA
