

EDI080205NG-BIO

Product code: EDI080205NG-BIO

Manufacturer: Edinburgh Sensors

Guardian NG is a stand-alone analyzer, with infrared sensor technology.

It is easy to install and require minimum set up. It has a LCD display integrated and digital alarm set-point controls.

The Guardian is housed in a robust plastic IP54 rated enclosure to prevent the entrance of particulates and water.

The version EDI080205NG-BIO has range 0-100% and it has been calibrated for Biogas application, considering the presence of carbon dioxide.

Available also with power supply 24V DC (18-36 V DC) (code DC at the end)

Power Supply	from 90 to 260 VAC
Target Gas	Methane
Output	0-20 mA 4-20 mA
