

EDI080110NG-DC

Product code: EDI080110NG-DC

Manufacturer: Edinburgh Sensors

Guardian NG is a stand-alone analyzer, with infrared sensor technology.

It is easy to install and require minimum set up. It has a LCD display integrated and digital alarm set-point controls.

The Guardian is housed in a robust plastic IP54 rated enclosure to prevent the ingress of particulates and water.

The version EDI080110NG has range 0-3000 ppm and power supply 24 V DC.

Power Supply	24V DC (18-30 V DC)
Measurement range	0-3000 ppm
Target Gas	Carbon dioxide
Output	0-20 mA
