

OD5

Product code: OD5

Manufacturer: Solartron

Series of conditioning modules with analog output voltage or current. The ODs vary mainly in the supply voltage 90-264 VAC. Other parameters are listed in the table below:

Bandwidth (Hz)	500 Hz
Output current	Greater than ± 20 mA in 150 Ω of charge
IP Index	40
Operating temperature	0 to +60
Supply voltage	90-264 VAC
Output voltage	Greater than ± 10 V
