

BICM ±15 VDC

Product code: BICM15

Manufacturer: Solartron

The BICM provides a simple low cost in line conditioning unit. Is designed for when the sensor is in a harsh environment, as the BICM can be connected up to 10 m from the sensor.

Bandwidth (Hz)	250
Sensor connection	Direct wire welding
Output current	Greater then ± 20 mA in 150Ω of charge
IP Index	40/67
Operating temperature	From 0 to $+70$ °C
Supply voltage	± 15 VDC
Output voltage	Greater then of ± 10 V
