

VS/2,5/GB

Product code: VS/2,5/GB

Manufacturer: Solartron

The VS / 2,5 / GB is an LVDT guided characterized by internal electronics.

The S series of displacement Transducers is the culmination of many years' experience gained from Solartron metrology's highly successful mach One range plus careful note of market feedback. The result is a totally new range of trasducers that is better able to satisfy today's demanding manufacturing and research applications.

It has a stroke (mm) of ± 2.5 .

Optimal in the areas of transport, energy, hydraulics and oleodynamics and in various industrial applications in the field of automation.

Electronics	Integrated
Measurement range	$\pm 2,5$ mm
Typology	Analogic
Output	Voltage
Version	Guided core carrier (G)
