

## AS/7,5/U

**Product code:** AS/7,5/U

**Manufacturer:** Solartron

The AS / 7,5 / U is an LVDT guided with universal joints characterized by external electronics.

The S series of displacement Transducers is the culmination of many years' experience gained from Solartron metrology's highly successful mach One range plus careful note of market feedback. The result is a totally new range of trasducers that is better able to satisfy today's demanding manufacturing and research applications.

It has a stroke (mm) of  $\pm 7,5$  and a sensitivity (mV / V / mm) 121.

Optimal in the areas of transport, energy, hydraulics and oleodynamics and in various industrial applications in the field of automation.

**Measurement range**

$\pm 7,5$  mm
