

## AS/15/S

**Product code:** AS/15/S

**Manufacturer:** Solartron

The AS / 15 / S is an LVDT guided with spring characterized by external electronics.

The S series of displacement Transducers is the culmination of many years' experience gained from Solartron metrology's highly successful mach One range plus careful note of market feedback. The result is a totally new range of trasducers that is better able to satisfy today's demanding manufacturing and research applications.

It has a stroke (mm) of  $\pm 15$  and a sensitivity (mV / V / mm) 60.

Optimal in the areas of transport, energy, hydraulics and oleodynamics and in various industrial applications in the field of automation.

**Measurement range**

$\pm 15$  mm
