AS/15/U

Product code: AS/15/U **Manufacturer:** Solartron

The AS / 15 / U is an LVDT guided with universal joints characterized by external electronics.

The S series of displacement Trasducers is the culmination of many years' experience gained from Solartron metrology's highly successful mach One range plus careful note of market feedback. The result is a totally new range of trasducers that is better able to satisfy today's demanding manufacturing and research applications.

It has a stroke (mm) of \pm 15 and a sensitivity (mV / V / mm) 60.

Optimal in the areas of transport, energy, hydraulics and oleodynamics and in various industrial applications in the field of automation.

Measurement range

±15 mm
