

## **VS/30/GU**

**Product code:** VS/30/GU

**Manufacturer:** Solartron

The VS / 30 / GU is an LVDT guided characterized by internal electronics.

The S series of displacement Transducers is the culmination of many years' experience gained from Solartron metrology's highly successful mach One range plus careful note of market feedback. The result is a totally new range of trasducers that is better able to satisfy today's demanding manufacturing and research applications.

It has a stroke (mm) of 30.

Optimal in the areas of transport, energy, hydraulics and oleodynamics and in various industrial applications in the field of automation.

**Measurement range**

30 mm
