

## VS/150/UU

**Product code:** VS/150/UU

**Manufacturer:** Solartron

The VS / 150 / UU is an LVDT guided with universal joints characterized by internal electronics.

The S series of displacement Transducers is the culmination of many years' experience gained from Solartron metrology's highly successful mach One range plus careful note of market feedback. The result is a totally new range of trasducers that is better able to satisfy today's demanding manufacturing and research applications.

It has a stroke (mm) of 150.

Optimal in the areas of transport, energy, hydraulics and oleodynamics and in various industrial applications in the field of automation.

**Measurement range**

150 mm
