

## SE100GF-T

**Product code:** SE100GF-T

**Manufacturer:** Tecnosens SpA

Digital handheld gas leakage detector, equipped with an external whip (for reaching the point in which the leakage is likely to happen) at whose end is mounted a gas semiconductor sensor for detection of low concentrations of hydrocarbons in gas appliances and pipes. This device can detect either Methane (CH<sub>4</sub>) or LPG (a mixture of isoButane and isoPropane), but generally to several types of Hydrocarbons.

<b>Sensors</b>	Semiconductor
<b>Power Supply</b>	Batteries
<b>Dimension</b>	72 x 151 x 37 mm
<b>Housing</b>	ABS HG
<b>Weight (grams)</b>	312 g
<b>Measurement range</b>	0 - 10.000 ppm CH <sub>4</sub> 0 - 1% VOL CH <sub>4</sub> 0 - 20% LEL CH <sub>4</sub> 0 - 1.800 ppm LPG
<b>Resolution</b>	1 ppm
<b>Working temperature</b>	0°C / 45°C
