

HCPV-201H-10

Product code: HCPV-201H-10

Manufacturer: Samyoung S & C

HCPV-201H-10 is an accurate and reliable humidity measuring sensor module based on HumiChip.

The humidity output of the sensor is temperature compensated and is in linear voltage which can be directly interfaced with a microcomputer with an ADC input.

Accuracy	±3% RH
Humidity range	0 ~ 100% RH
Sensitivity	26.23mV/%RH
Connection type	Wires
