HCPV-200W

Product code: HCPV-200W
Manufacturer: Samyoung S & C

HCPV-200W is an accurate and reliable humidity measuring sensor module based on HumiChip.

The humidity output of the sensor is temperature compensated and is in linear voltage which can be directly interfaced with a microcomputer with an ADC input.

Accuracy	±3% RH
Temperature range	-40°C /+ 85°C
Humidity range	0 ~ 100% RH
Sensitivity	26.23mV/%RH
Connection type	Connector
