

HCPV-200P

Product code: HCPV-200P

Manufacturer: Samyoung S & C

HCPV-200P is an accurate and reliable humidity measuring sensor module based on HumiChip.

The humidity output of the sensor is temperature compensated and is in linear voltage which can be directly interfaced with a microcomputer with an ADC input.

Accuracy	±3% RH
Temperature range	-40°C /+ 85°C
Humidity range	0 ~ 100% RH
Sensitivity	26.23mV/%RH
Connection type	Pin
