

KPDU400F-2

Product code: KPDU400F-2

Manufacturer: Kyosemi Corporation

Features:

- Enhanced sensitivity
- 254nm passband filter attached
- Large sensing area

Applications:

- UV sensors
- Spectroscopy
- Flame sensors
- Mercury lamp monitor
- UV exposure meters
- Medical uses

Half Angle (deg)	70
Package	TO-5, hermetic seal
Peak sens. wavelength (nm)	254
Sensitive Area (mm)	4 x 4
Typology	Silicon UV Sensors
