

KR1571

Product code: KR1571

Manufacturer: Shinkoh electronics

Model KR1571 consist of an ultraviolet LED and a silicon

Feature:

- UV LED - Peak wavelength: 365nm.
UV cut filter on detection surface.
Installed on PC board.

Application:

- Bill discrimination by functional ink.
- Scanning of Bill for Validator.
- Paper detection by ultravio

Dust Proof	Yes
Gap	2mm
Mounting	PCB
Output	Analog output
Output Mode	Livello logico alto
Series	KR Series
Output type	Pull-up
