

KD1366

Product code: KD1366

Manufacturer: Shinkoh electronics

Model KD1366 is silicon photodiode mounted in Surface mount package

Feature:

- NPN photo transistor λ_p :900nm.

Application:

- Photo detector for Bill validator.
- Photo detector for printing discrimination.

Mounting	SMD
Output	Photo Diode
Output Mode	Livello logico alto
Peak sens. wavelenght (nm)	900nm
Series	KD Series
Output type	Pull-up
