

KL1572

Product code: KL1572

Manufacturer: Shinkoh electronics

Model KL1572 is 2 wavelengths Light Emitting Diode mounted in Surface mount package.

Feature:

- 2 LED chips in 1 package.
- Compact design - Surface mount type.
- Wide Beam Angle and High power.

Application:

- Light source for Bill validator.
- Light source for printing discrimination.

Mounting	SMD
Output	Photo Diode
Output Mode	Digital high level
Paeak	2 C/W
Series	KL Series
Output type	Pull-up
