CMM5042

Product code: CMM5042
Manufacturer: Figaro Engineering Inc.

The CMM5042 carbon monoxide sensor module is a new unit which utilizes TGS5042, Figaro's electrochemical CO sensor, a widely used model for residential and commercial CO detectors with excellent durability and long term stability.

This module provides analog output voltage proportional to CO concentration. CMM5042 is capable of detecting sensor trouble.

Customers can easily design CO detectors with the ready-to-use module.

Measurement range	0-800 ppm
Target Gas	Carbon Monoxide
Response Time	< 60 seconds (T90)
Output	0-2 VDC
