

CGM6812-B00

Product code: CGM6812-B00

Manufacturer: Figaro Engineering Inc.

The CGM6812-B00 is a pre-calibrated module for combustible gases, which use TGS6810.

This module provides analog output voltage proportional to hydrogen gas concentration.

Application field	Industrial
Heater consumption	$\leq 1.5W$
Measurement range	0-14.000 ppm
Target Gas	Hydrogen Propane Methane Isobutane
Response Time	< 30 seconds (T90)
