

CDM7160-C00

Product code: CDM7160-C00

Manufacturer: Figaro Engineering Inc.

The CDM7160 is an NDIR dual beam module developed for IAQ devices, ventilation control systems, air conditioning systems etc

The module is supplied calibrated and with I2C and UART interfaces.

The module is one of the smallest CO2 module in the world, especially if we consider its thickness.

Power Supply	4.5-5.25 VDC
Measurement range	300-5000 ppm CO2
Target Gas	Carbon dioxide
Output	I2C PWM UART
