

TGS5141-P00

Product code: TGS5141-P00

Manufacturer: Figaro Engineering Inc.

TGS5141-P00 is an electrochemical sensor for carbon monoxide.

Thanks to the use of a solid electrolyte and not liquid, like usually used in electrochemical cell, Figaro managed to reduce greatly the dimension of the sensor. Another big advantage is the sensor life which benefits from this technology.

The features of TGS5141 make it suitable for the development of industrial, commercial and also portable detector.

Measurement range

0-5000 ppm

Target Gas

Carbon Monoxide
