

FCB-ER8550

Product code: FCB-ER8550

Manufacturer: Sony

The new FCB-ER8550 camera block incorporates a 1 / 2.5-type Exmor R sensor with 4K resolution (3,840 x 2,160, QFHD) up to 30p.

The new camera features a 20x optical zoom lens which, thanks to the SRZ (Super Resolution Zoom) technology, can maintain 4K resolution up to a 30x zoom, providing greater 4K visibility in a compact form factor.

This camera also inherits some unique features of the famous Sony FCB camera series such as auto-ICR, privacy zone masking, noise reduction, improved visibility, working also in difficult lighting conditions.

The FCB-ER8550 integrates an external synchronization function that makes this camera block particularly suitable for medical applications (scialtic lamps), broadcasting, video surveillance and much more ...
