GasBox

Product code: GasBox

Manufacturer: Edinburgh Sensors

The Boxed Gascard is the latest development in the NG range of products from Edinburgh Sensors, for CO2 measurement, in a robust aluminum housing.

This board, produced by Edinburgh Sensors, has beed developed to allow an easy integration in several applications in gas monitoring field and in particular for applications which need high quality, long term stability and precise measures. The board is temperature compensate and it has RS232 interface. As optional choice there is also the Ethernet interface.

It is available in the following range:

0-2000ppm

0-5000ppm

0-1%

0-3%

0-5%

0-10%

0-30%

0-100%

0-100% Biogas

Power Supply 24V DC (7-30V)
