

NVR Box 8ch-2T 3G

Product code: NVR Box 8ch-2T 3G

Metal box for pole installation, complete with 100W industrial power supply, 100-240Vac input, 12Vdc 8A output, 80% efficiency.

Protection against overvoltages, overload, short circuit.

Operating temperature range -40 + 70 ° C (from 50 ° C to 70 ° C the useful power drops by 2.5% / ° C).

MTBF over 60,000 hours according to MIL-HDBK-217F.

It integrates video recording unit up to 8 IP cameras with a total of 48 Mbps data (24 Mbps Recording + 24Mbps for reproduction) with 2000GB memory capacity.

5-port industrial switch with operating temperature range -40 + 75 ° C and 802.11 b/g/n

Access Point with operating temperature range -40 + 70 ° C for local connection and movie downloads.

3G router for remote connection for diagnostic purposes, verifies operation and download of short videos (not compatible with continuous use due to SIM card data transfer limits).

Housing products with optimized passive dissipation system.

Operating field	Esterno
Video channels	8
Data trasmission	LAN Wi-Fi 3G
