

FLP-G11

Product code: FLP-G11

Manufacturer: Fujikura Ltd.

Fujikura's pulsed fibre lasers, with Q-Switch technology achieve an high beam quality and register high stability performance, even in the most difficult operating conditions.

Ideal for marking, deep engraving, steel plate cut and cleaning surfaces, pulsed fibre lasers allows reduced processing times, preserving the high quality of the product.

Beam Quality	< 1.6 - Typ 1.3 (M2)
Dimension (W x H x L)	215 x 95 x 286 mm
Pulse energy	1.0 / 1.1 mJ
Beam repetition frequency	30-80 / 50-100 kHz
Pulse width	50 - 200 ns
Wavelength (nm)	1080 - 1095
Function mode	Q-Switched Pulse
Power	30W / 55W
Cooling	Air cooled
Working temperature	0° - 40°
