

Laser and reflective-light line sensors L-LAS

Product code: L-LAS

Manufacturer: Sensor Instruments

Line sensors are applied where precise positioning is required or where the dimensions of an object have to be determined with high accuracy (e.g. diameter of a wire).

Sensor Instruments' product range includes:

- Line cameras (L-LAS-CAM Series)
- Laser distance line sensors (L-LAS-LT Series)
- Reflection light line sensors (L-LAS-RL Series)
- Laser transmitted light line sensors (L-LAS-TB Series)
