Gas Refrigeranti

Inc.

The TGS2630 gas sensor has a built-in filter to reduce the influence of alcohol and other interference gases, resulting in high selectivity to R-32.

FCM2630-E00

Product code: FCM2630-E00

Manufacturer: Figaro Engineering

This module enables users to easily build a reliable

addition, a connector allows easy replacement of the

gas leakage detection system by eliminating electronic circuit design for temperature compensation and the calibration process. In

gas sensor module for periodic maintenance.
