

## KE-25LF

**Product code:** KE-25LF

**Manufacturer:** Figaro Engineering Inc.

GS Oxygen Sensor KE-LF Series are unique galvanic cell type oxygen sensors developed in Japan company Figaro, leader on the market of Gas Sensors. The main features are long life expectancy, excellent chemical durability, and no influence by CO<sub>2</sub>.

KE Series oxygen sensors are ideal for application in oxygen monitoring in various fields such as combustion gas monitoring, Oxygen test Kits, Refrigeration, Greenhouses and more.

The model KE-25 is available in two different top (codes: KE-25LF with exagonal standard connector, KE-25F3LF threaded top).

<b>Life expectancy</b>	About 5 years
<b>Measurement range</b>	0-30%
<b>Target Gas</b>	Oxygen
<b>Response Time</b>	About 15 seconds
