SE200GF-T

Product code: SE200GF-T

Manufacturer: Tecnosens SpA

Digital handheld gas leakage detector, equipped with an external whip (for reaching the point in which the leakage is likely to happen) at whose end is mounted a gas semiconductor sensor for detection of low concentrations of hydrocarbons in gas appliances and pipes. This device can detect either Methane (CH4) or LPG (a mixture of isoButane and isoPropane), but generally to several types of Hydrocarbons.

Power Supply	Batteries
Dimension	72 x 151 x 37 mm
Housing	ABS HB
Weight (grams)	312 g
Measurement range	0 - 10.000 ppm CH4 0 - 1% VOL CH4 0 - 20% LEL CH4 0 - 1.800 ppm LPG
Resolution	1 ppm
Working temperature	0°C / 45°C
Sensor type	Semiconductor
