

EC01

Product code: EC01

Manufacturer: Figaro Engineering Inc.

High quality Test Chamber for Figaro Gas Sensors and Evaluation Modules.

Thanks to its internal fan, the mixture of gases introduced in the chamber is equally distributed and spreaded in order to allow accurate tests and calibrations in a controlled environment.

The EC01 chamber can be equipped with a test board for a maximum of 12 modules: the signals are broadcasted through flat ribbon cable provided with the Test Chamber.

Main Features:

- Inner Capacity: 10300ml
- Power Consumption: 2W (when fan is on)
- Power Supply: 100V-240V AC
- Dimensions: 340x270x202mm
