

FLS122

Product code: FLS122

Manufacturer: Flusso

Features

- Silicon-MEMS thermal air velocity sensor
- Small footprint: 3.5 mm x 3.5 mm x 2mm.
- Air speed range: up to 20 m/s.
- Span accuracy: +/- 5% measured value.
- Fully temperature-compensated readings.
- Configurable operating modes and features.

Benefits

- Solid-state sensor.
- Ultra-low power.
- High precision.
- Easy integration into existing flow paths.
- Fully compatible with SMD assembly processes.

Flow range	up to 20 m/s
Dimension	3.5 x 3.5 x 2
Target Gas	Air
