

AG30F-25KA

Product code: AG30F-25KA

Manufacturer: Fujikura Ltd.

Piezoresistive absolute pressure sensor,
compensated and calibrated.

The AG3 family is characterized by:

- Amplified and temperature compensated smooth analog output
- Low profile flat package
- Compatible with the XFAM/X3AM integrated pressure sensors

Accuracy	0.9% FS
Temperature compensation	0-85°C
Pressure port length	/
Mounting	SMD
Pin orientation	Opposite
Pressure port	Not present
Pressure Type	Absolute
Measurement range	250 kPa
Supply voltage	5.0 Vdc
