

LGD COMPACT-A CH4/C2H6

Product code: LGD COMPACT-A
CH4/C2H6

Manufacturer: Axetris

LGD Compact A is a module with laser technology (TDLS) idea for very low gas concentration.

The module is characterized by:

- high selectivity and long term stability
- fast response time
- compact and self-contained design permitting quick integration by OEMs
- low power consumption

Power Supply	10-30 Vdc
Measurement range	0-100ppm CH4 / 0-1000ppm C2H6 0-40.000ppm CH4 / 0-1000ppm C2H6
Target Gas	Methane and Ethane
Output type	RS232 4-20 mA 0-5 V
