

LGD COMPACT-A NH3/H2O

Product code: LGD COMPACT-A
NH3/H2O

Manufacturer: Axetris

LGD Compact A is a module with laser technology (TDLS) idea for very low gas concentration.

The module is characterized by:

- high selectivity and long term stability
- fast response time
- compact and self-contained design permitting quick integration by OEMs
- low power consumption

Power Supply	10-30 Vdc
Measurement range	0-100ppm NH3 / 0-50.000ppm H2O
Target Gas	Ammonia and H2O
Output type	RS232 4-20 mA 0-5 V
