

EDI080120NG

Product code: EDI080120NG

Manufacturer: Edinburgh Sensors

Guardian NG is a stand-alone analyzer, with infrared sensor technology. It is easy to install and require minimum set up. It has a LCD display integrated and digital alarm set-point controls.

The Guardian is housed in a robust plastic IP54 rated enclosure to prevent the ingress of particulates and water. The version EDI080120NG has range 0-1000ppm. Available also with power supply 24V DC (18-36 V DC) (code DC at the end)

Power Supply	24V DC (18-30 V DC)
Measurement range	0-1000 ppm
Target Gas	Anidride Carbonica
Output	4-20 mA 0-20 mA
