

## EDI080304NGDC

**Product code:** EDI080304NGDC

**Manufacturer:** Edinburgh Sensors

Guardian NG is a stand-alone analyzer, with infrared sensor technology.

It is easy to install and require minimum set up. It has a LCD display integrated and digital alarm set-point controls.

The Guardian is housed in a robust plastic IP54 rated enclosure to prevent the ingress of particulates and water.

The version EDI080304NGDC has range 0-100%

|                          |                    |
