

GFUV-T10GM-LA-L

Codice prodotto: GFUV-T10GM-LA-L

Produttore: Genicom Co., Ltd.

Description: Genicom UV sensors make the photocurrent under UV light but its level is very low. Therefore the output current has to be amplified by proper gain to analog voltage.

Features: Single Supply Voltage, 0-5V Voltage Output

Application: Far UV Lamp Monitoring(222nm)
,Excimer Lamp Monitoring

Alimentazione	5 V
Dimensioni	28 x 17 x 9
Lunghezza d'onda	222 nm
Output	Tensione
Tempo di Risposta	10 ms
